

## About the Practice

We are a friendly practice with one male doctor. We have the benefit of highly skilled nurses. We provide a comprehensive range of high quality General Practice services.

## The role of a GP

A General Practitioner (GP) is your family doctor and is the main point of contact for general healthcare. GPs help you to manage your health and prevent illness and are trained in all aspects of general medicine.

This includes mental health, adult medicine, the diagnosis and management acute medical problems and the management of longterm health conditions such as diabetes or asthma.

Gps may arrange hospital admissions and referrals to specialists.

## Services

We offer a wide range of services including:

- Blood Tests
- Asthma Care
- Spirometry Testing
- Diabetes Care
- Cardiovascular Risk Assessments
- ECGs (electrical heart trace)
- Immunisations
- Flu Vaccinations
- Mental Health
